

DIAGNOSING ROW B

If your child had these answers to row B

B	5)	300	6)	600	7)	500	8)	700
		--		--		--		--
		147		218		221		88
		<u> </u>		<u> </u>		<u> </u>		<u> </u>
		253		482		379		712

same problem as row A. didn't lower the first digit by one when one (hundred) was taken from hundreds place.

If your child got these answers to row B

B	5)	300	6)	600	7)	500	8)	700
		--		--		--		--
		147		218		221		88
		<u> </u>		<u> </u>		<u> </u>		<u> </u>
		152		381		278		611

Instead of putting a 10 in the (ones) place, the child put a 9 there.
